

Existing retail

Currently, space in Union Station is under-utilized. There is limited retail, and what is in the GO concourse does not meet the needs of the wide range of passengers and tourists. The preferred approach would see retail increase and diversify without impeding the flow of pedestrians.

- 2,370 m² of space is currently used for retail, 470 m² of that is for GO Transit ticket sales
- Most of the current retail space is in the GO Concourse and is focussed on convenience food
- What would you like to see for shops and services in Union Station? Fill out the questionnaire online at www.toronto.ca/union_station

Lower Concourse
