35 Jane/935 Jane Express Travel Times Eglinton to Steeles Northbound May 2021

The chart illustrates the travel times for the 35 Jane/935 Jane Express Northbound route from Eglinton to Steeles during May 2021. The Y-axis represents travel time in minutes, ranging from 0 to 50. The X-axis represents the time of day, ranging from 6:00 to 23:00. The chart displays four sets of data, each representing a different period in May 2021, with actual travel times shown as solid lines and expected travel times shown as dotted lines.

- May 3-7/21 (Red):** Actual travel times range from approximately 30 to 35 minutes. Expected travel times range from approximately 25 to 30 minutes.
- May 10-14/21 (Orange):** Actual travel times range from approximately 30 to 40 minutes. Expected travel times range from approximately 25 to 30 minutes.
- May 17-21/21 (Green):** Actual travel times range from approximately 30 to 42 minutes. Expected travel times range from approximately 25 to 35 minutes.
- May 25-31/21 (Blue):** Actual travel times range from approximately 30 to 40 minutes. Expected travel times range from approximately 25 to 35 minutes.

Overall, the chart shows that travel times are generally higher during the peak hours (16:00-18:00) and lower during the off-peak hours (6:00-9:00). The expected travel times are consistently lower than the actual travel times, indicating that the schedule is often delayed.
